Case # 15-LV-10036

Motion to enter my <sup>attached</sup> FOIA  
request to the General Retirement Board  
into the record.

Having asked for these names  
earlier and being rejected by the  
court, I presented this FOIA request  
to the general retirement board  
today. I want the plan amended and  
do not know how much treating police  
fire, Ems, ~~and~~ and the general retirees  
fairly between these two classes and  
within the classes would save or would  
cost. Also fraud should not be rewarded in  
these settlements just to avoid litigation, i.e. illegal  
contracts, swap & cap parties, <sup>and the</sup>  
Running of DWSB by the contractors.

Rec'd

This is a freedom of information Act request for the names of the general retirement board members for each of the last 15 (fifteen) years, as well as the roll call votes on annuity interest payments during these years.

Additionally, I am requesting the names of the financial advisors on our staff and the names of the financial advisors and their companies, not on the retirement system staff, and the ~~for~~ investment fees charged for ~~their~~ investment advice, from these <sup>the "outside"</sup> companies, and the profit and loss record of the in house and out house advisors.

Additionally, I am requesting the originator and author of the "public participation guidelines" that the retirement system initiated today 4/15/2015. And what and why is this form required to enter the meeting room. Will you televize your meeting?

If you are not in closed session, is refusing us entry by leaving us in the lobby, a violation of the open meetings act?

When and where does the health care board meet? How much are their bonds worth and have they been sold?

When will the mediations on this public bankruptcy be made public?

Why were the general retirees unfairly discriminated against compared to Police and Fire and EMS retirees? Why did police and fire have their elected representatives represent them in the bankruptcy proceedings while the ~~the~~ general retirees so called representatives were appointed by the court.

Why was the annuity <sup>of any back</sup> capped when appointees and his paid supervisors profitted the most by the interest annuity payments? Shirley Lissey was a supervisor in the water dept and was appointed to represent the interests of general retirees.

Additionally, I want a list of job titles and annuity amounts for all annuity holders and the retirement date if retired.

Additionally I want a list of job titles and pension amounts before and after the March 1<sup>st</sup> check, and the calculations "justifying reducing the general pension check and eliminating COLA cost of living adjustments, instead of removing the cap after the annuity of a well paid supervisor makes over \$500,000? This is excentuating income inequality."
